

WHAT IS THE ROSE HIP OIL?

“Rose Hip” or “Rosa Mosqueta” Oil is from the seed of a native wild rose growing in the cool, rainy, mountainous region of southern Chile. The oil is cold-pressed to preserve the nutrient content and is 100% organic certified by **Soil Association**. Pure Rose Hip oil contains around three quarters essential fatty acids: oleic, linoleic, and linolenic, which help maintain healthy skin. Rose Hip Oil also contains natural Tretinoin, a derivative of Retinol (vitamin A), which replenishes and helps rebuild skin tissue.

WHAT IS IT USED FOR?

Rose Hip Oil has been used for centuries in South America for its effective moisturizing qualities. Pure Rose Hip Oil replenishes dry and damage skin and promotes elasticity and firmness naturally. Scientific studies confirm that Rose Hip Oil is highly effective in the treatment of:

- . **Surgery**
- . **Minor burns**
- . **Stretch marks**
- . **Acne**
- . **Sun exposure**

And helps to reduce pigmentation and raised scar tissue by promoting healthy skin renewal, effective even on non-recent scars.

HOW IS ROSEHIP OIL USED?

Rose Hip Oil is light, non-greasy and quickly absorbed into skin. For best results: Gently massage 3-4 drops into the affected area around 30 seconds, twice daily. The oil is pure, with no additives and safe to use undiluted even on sensitive skin.

A natural moisturizer for dry, sensitive, allergic, sun damage, hyper pigmented problem skin conditions and daily skin care.

Regenerates damage skin: improves blood irritation. Increases the epidermis regeneration and the capacity to produce new tissue as a consequence of an acceleration of the differentiation of the keratin.

Provides excellent results in the treatment on burned skin or on skin that has been exposed to radiotherapy.

It is a superb tissue hydrator with a high absorbing level, penetrating dry skin almost instantly to restore a much needed moisture balance frequently lost by climatic and environmental conditions such as dryness and air toxicity.

Rose Hip Oil applied twice a day every day for about three months reduces scar tissues, helps to prevent and fade stretch marks, attenuates wrinkles & age spots. Anti-inflammatory, improves burned skin. Aids in the treatment of dermatitis that results from radiotherapy. Excellent to prevent photo aging and immediately relieve dry skin and eczema.

WHY AN OIL IS BETTER THAN A CREAM

Using oil to hydrate your face and the delicate tissue around your eyes is more effective than a crème for several reasons.

First, natural oils, particularly Rose Hip Oil, penetrate quickly and completely with gentle massaging instead of rubbing.

Second, “ patting” crèmes can leave a residue that can clog the pores in the delicate tissue around the eyes. The unique textures of these tissues respond better to the molecular structure of natural oils than to that of crèmes.

Finally, unlike any cream, Rose Hip Oil contains the most exquisite and concentrated natural synergy of all regenerating oils. It contains essential unsaturated fatty acids (linoleic and linolenic) and natural Trans-Retinoic Acid

(a form of vitamin A) that maximize cell fortification in the tissue. Pure Rose Hip seed oil is a “ must have” product for those who want a healthy skin.

EFFECTS

. Diminishes scars and pits

It is effective on scars caused by acne, surgery, burns, chicken pox, injuries and cuts. Rose Hip Oil's potent cell regenerating and wound-healing properties help to replace ugly scar tissue with healthy, normal skin. It not only remodels damaged skin structure; it also improves skin color and elasticity.

. Fights skin aging

Rose Hip Oil halts and reverse typical signs of aging like wrinkles, crow's feet and sagging skin by accelerating the skin's cellular activity to improve renewal and cell regeneration. The face becomes firmer and smoother as signs of aging diminish.

. Lighten pigmentation

It increases the skin's capacity to produce new cells. As new cells replace old ones, pigmentation spots gradually lighten. Rose Hip Oil can also accelerate the lighting of the "pregnancy mask" (pigmentation occurring mostly on the cheeks during pregnancy).

. Re-hydrates dry skin

By the time we reach age 50, our skin produces 10 times less oil than when we were 25. Lack of oil and depleted moisture lead to dehydration and wrinkling of the skin. Rose Hip Oil restores the optimal balance of fatty acids and water, which re-hydrates the skin.

. Reduces stretch marks

Rose Hip Oil repairs and replaces torn skin tissues, which significantly reduces the appearance of stretch marks and makes the skin color more even.

THE STORY OF OIL OF MOSQUETA

Rose Hip Oil can help you look better than ever before. The people of Chile have used it for centuries. Scientific investigation into its properties began in the 1970's. Today its remarkable effects are recognized globally and it is recommended by dermatologist, skin specialist and cosmetic surgeons.

To look young is a desire that many have sought after since the beginning of time and is likely to remain the desire of men and woman until time eternal. The total purpose of oil Mosqueta (Rose Hip Oil) is to keep your skin scrupulously clean and soft, and beautiful as Mother Nature intended. Oil of Mosqueta Collection has been carefully developed to match as closely as possible the natural fluids your own body produces. Our chemists, through advanced knowledge and understanding of properties that can disturb sensitive skins, have spared no expense in bringing you the finest and purest products available anywhere. This natural “ Oil of Mosqueta” obtained from the seeds of a wild rose that grows in the Andes Mountains of South America without the touch of men and keeping all its biological properties. This oil contains a high-level of essential fatty acids, which are fundamental in the biochemical process related to tissue regeneration. The “ Oil of Mosqueta” is ideal for early aging, skin as well as for attenuating scars and skin spots.

*****PURE “ OIL OF MOSQUETA” :** This pure oil, enriched with vitamin E, is the essence of our skincare collection. It is unequalled for its penetrating properties making it easily absorbed by the skin. Use it daily as a skin moisturizer for softer, smoother and healthier looking skin. Ideal for wrinkles, stretch marks, scars and spots. Avoid application on oily skin and those affected by any type of acne.

*****CLEANSING CREAM:** This silky cream penetrates deeply into pores to remove make-up or any trace of soil and mascara. It contains Rosehips oil. Leaves skin clean and extra soft. Perfect for all skin types. Use it morning and night for a fresh new complexion.
